

# CONCUSSION CODE OF CONDUCT

## For Coaches and Team Trainers

*Rowan's Law (Concussion Safety), 2018* makes it **mandatory**, as of July 1, 2019, for sport organizations to:

1. Ensure that athletes under 26 years of age, parents of athletes under 18, coaches, team trainers and officials confirm every year that they have **reviewed Ontario's Concussion Awareness Resources**
2. Establish a **Concussion Code of Conduct** that sets out rules of behaviour to support concussion prevention
3. Ensure that athletes under 26 years of age, parents of athletes under 18, coaches, and team trainers have read and agree to the Concussion Code of Conduct.

*Items marked with an asterisk \* are mandatory by O.Reg. 161/19: General.*

---

### I can help prevent concussions through my:

- Efforts to ensure that my athletes wear/use the proper equipment and wear/use it correctly.
- Efforts to help my athletes develop their skills and strength so they can participate to the best of their abilities.
- Respect for the rules of my sport or activity and efforts to ensure that my athletes do, too.
- Commitment to fair play and respect for all (respecting other coaches, team trainers, officials and all participants and ensuring my athletes respect others and play fair). \*

### I will care for my health and safety by taking concussions seriously, and I understand that:

- A concussion is a brain injury that can have both short- and long-term effects.
- A blow to the head, face, or neck, or a blow to the body may cause the brain to move around inside the skull and result in a concussion.
- A person doesn't need to lose consciousness to have had a concussion.
- An athlete with a suspected concussion should stop participating in training, practice or competition **immediately**.
- I have a commitment to concussion recognition and reporting, including self-reporting of possible concussion and reporting to a designated person when an individual suspects that another individual may have sustained a concussion. \*

- Continuing to participate in further training, practice or competition with a suspected concussion increases a person's risk of more severe, longer lasting symptoms, and increases their risk of other injuries or even death.

**I will create an environment where participants feel safe and comfortable speaking up. I will:**

- Encourage athletes not to hide their symptoms, but to tell me, an official, parent or another adult they trust if they experience **any** symptoms of concussion after an impact.
- Lead by example. I will tell a fellow coach, official, team trainer and seek medical attention by a physician or nurse practitioner if I am experiencing any concussion symptoms.
- Understand and respect that any athlete with a suspected concussion must be removed from sport and not permitted to return until they undergo a medical assessment by a physician or nurse practitioner and have been medically cleared to return to training, practice or competition.
- *For coaches only:* Commit to providing opportunities before and after each training, practice and competition to enable athletes to discuss potential issues related to concussions. \*

**I will support all participants to take the time they need to recover.**

- I understand my commitment to supporting the return-to-sport process. \*
- I understand the athletes will have to be cleared by a physician or nurse practitioner before returning to sport.
- I will respect my fellow coaches, team trainers, parents, physicians and nurse practitioners and any decisions made with regards to the health and safety of my athletes.

**By signing here, I acknowledge that I have fully reviewed and commit to this Concussion Code of Conduct.**
